Experimental Instruction Appendix for "Why Do We Procrastinate: Present Bias and Optimism"

I Lab-Based Experiment Instructions

This appendix includes a representative portion of the instructions and surveys for the lab-based experiment. Because the survey presentation varied from subject to subject (due to them receiving a different treatment, having different choices randomly selected to be implemented, etc.), we print the survey instrument directly from Qualtrics. Thus, the surveys rely on Qualtrics' internal logic and referencing system. Subjects only see one version of any question, and any reference fields would be replaced with the information which was appropriate for that subject. The full set of surveys is omitted for space reasons and because they do not differ significantly from the materials provided here. They will be provided by the authors upon request.

Appendix I.1 provides the introductory script with the associated presentation that was read to subjects. Appendix I.2 provides the survey that subjects completed at the introductory session.

Appendix I.3 provides the morning survey that subjects completed on Monday of the second week of the experiment. The survey given on Monday of the first week looked identical except for the treatment, which was omitted. The survey given on every other morning looked identical except that it did not include the treatment, the commitment demand elicitation, or the allocation decision.

Appendix I.3 provides the evening survey and first task that subjects completed on Monday of the second week of the experiment. The evening survey subjects completed on Monday of the first week of the experiment looked identical. The evening survey subjects completed on Wednesday of both weeks looked identical except that it did not include the allocation decision.

I.1 Introductory Script and Slides

Time Use Study Script

Hello everyone, my name is Zachary. Thank you for your participation in this study about sleep and time use.

Slide

This study requires participation over two weeks. To participate, you must be willing to:

- wear the Fitbit wristband on Sunday, Monday, Tuesday, and Wednesday nights of this coming week,
- to complete a series of 8 surveys on Monday through Thursday morning of the next two weeks,
- to complete a series of 4 tasks on Monday and Wednesday evenings of the next two weeks,
- to return the Fitbit wristband to the economics department on Thursday or Friday of next week, and
- to pick up your payment on Thursday or Friday of the second week.

Surveys and tasks will be completed online, and the link will be sent to you when it is time to complete the survey.

Slide

1

This is a picture of the Fitbit wristband that you will be required to wear to bed Sunday through Thursday of this coming week. You should only wear it when you're in bed, not during daytime hours. If the band gets wet, dry it off. You are required to return the band to the Economics Department on Thursday or Friday of next week, between the hours of 8AM and 6PM.

Slide

The tasks you must complete in the evenings consist of moving sliders to a predetermined level, which is given to the left of the slider. You will be unable to move on until you match each slider to the given level. While the morning surveys can be completed on a phone or tablet, it is recommended that you complete these tasks on a computer. You'll complete several example tasks during the initial survey at the end of this session to see what they're like.

Slide

Participation in the study requires completing the surveys and tasks at particular times. Morning surveys must be completed before noon, and evening tasks must be completed between 9PM and 2AM. Furthermore, the Fitbit wristband must be returned during business hours on Thursday or Friday next week, and the final payment must be picked up on Thursday or Friday in two weeks. If you are unable to complete the requirements of this study, you are free to leave at this point, as payments will be forfeit if the requirements are not met.

Slide

You have been given a consent form that describes your rights. Please look it over now while we prepare the remainder of this session. If you have questions, please raise your hand and I'll come address them. We'll pick up the forms before continuing.

Unplug projector and prepare survey

You may open your computers now. The link for the initial survey should now have been sent to the email address you gave us, although it may take a few minutes to arrive. Please log in to your email account and follow the directions. When you have completed the initial survey, you may come to me to receive your Fitbit wristband.

Give band and payment

Here is your sleep tracker. Remember to wear it when you sleep Sunday night through Wednesday night. Your first survey will arrive on Monday morning.

• Wear the Fitbit wristband on Sunday, Monday, Tuesday, and Wednesday nights of the first week

Requirements

- Complete eight morning surveys, and 4 sets of evening tasks, all of which will be emailed to you
- Return the Fitbit wristband and pick up \$10 payment at the economics department on Thursday or Friday of the first week
- Pick up your \$30 payment from the economics department on Thursday or Friday of the second week

•00000

Fitbit Wristband

- Wear the band on Sunday, Monday, Tuesday, and Wednesday nights of the first week, *only when you are in bed*
- Return them to the economics department next Thursday or Friday

Time Use Study

Timing

To participate in the study, you must be able to do all of the following:

 eight surveys completed at home, lasting 5-10 minutes, to be completed before noon on Monday-Thursday of next week and the week after

000000

- four surveys completed at home, lasting 15-20 minutes, to be completed between 9PM and 2AM on Monday and Wednesday night of next week and the week after
- return the Fitbit wristband during business hours (8AM to 6PM) on Thursday June 1st or Friday June 2nd.
- pick up your payment during business hours (8AM to 6PM) on Thursday June 8th or Friday June 9th.

- You received a consent form after you entered that describes your rights as a subject. Please read it.
- If you would no longer like to be part of this study, you are free to leave at this point.

Here are a few more questions about your attitude and behavior. Please be as honest and accurate as you can throughout. Try not to let your response to one statement influence your responses to other statements. There are no "correct" or "incorrect" answers. Answer according to your own feelings, rather than how you think "most people" would answer.

In uncertain times, I usually expect the best.

Hi! This is a quick survey to better understand your daily sleep habits. Most of the questions ask you about your sleep last night. Please answer them as honestly as possible. You'll make decisions about tonight's tasks on the next page. Thanks!

How long did you study yesterday (in hours)? Note: Study time does not include class time.

I want to ask you about how you spent your time yesterday. For each hour of the day, please select the activities you did.

Choosing the Implemented Allocation

Last week, on Monday morning you said you'd do +\${e://Field/Extra11}} tasks on Monday evening and +10-\${e://Field/Extra11}} tasks on Wednesday. When you were asked in the evening, you decided to do +\${e://Field/Extra12}} on Monday, and +10-\${e://Field/Extra12}} on Wednesday. **Thus, your choices did not change.**

Also, on average you predicted that your bedtime would be \${e://Field/PredictedBedtime}, and your actual average bedtime was \${e://Field/ActualBedtime}, so you missed your predicted bedtime by about \${e://Field/DifferenceBedtime} minutes.

Why might someone's choices and predictions change throughout the day?

Choosing the Implemented Allocation

Here is a series of choices that can affect the probability that the morning allocation will be the one that is chosen. To affect the probability, you may have to agree to do more baseline tasks. You will never have to do tasks in the morning - these decisions just affect which allocation is implemented.

This decision will measure the strength of your preference for which decision is implemented.

We'll randomly select which one of these decisions we implement. When you make these decisions, treat every decision as if it is the one that counts because each decision is the one that could be implemented.

I

II Online Experiment Instructions

This appendix contains the survey instrument for the online experiment. Because the survey presentation varied from subject to subject (due to them receiving a different treatment, being randomized into different incentives, having different contest outcomes, etc.), we print the survey instrument directly from Qualtrics. Thus, the surveys rely on Qualtrics' internal logic and referencing system. Subjects only see one version of any question, and any reference fields would be replaced with the information which was appropriate for that subject. We also remove pages that contain nothing but sliders in Surveys 2-5. II.1 Survey 1

Basic Instructions

What is your Prolific ID? Please know that this response should auto-fill with the correct ID

Warning: If your Prolific ID is not entered correctly, you will not have access to the other parts of the study and you will not receive payment.

\${e://Field/PROLIFIC_PID}

Thank you for agreeing to participate in the study. This study is about decision-making.

This is the first of <u>five parts</u> in this study. You will earn money based on the choices you make and the activities you complete throughout the study. Your submissions will be approved if you complete <u>all five</u> <u>parts of the study</u>.

The second, third, fourth, and fifth parts of this study will also be completed through Prolific. We expect that those who participate in the study will receive at least \$10 per hour on average *for every part* completed. You will also earn *bonus payments* for completing experimental tasks.

The link below will allow you to download an information sheet about the study. Please read the information sheet.

Participant Information Sheet

Please refer to the calendar below to see when each part of the study must be completed. The second part of the study must be completed on Monday or Tuesday of next week. The third part of the study must be completed on Thursday or Friday of next week. The fourth part must be completed on Monday or Tuesday of the week after next. The fifth and final part must be completed on Thursday or Friday of the week after next. Subject to completion, <u>all</u> <u>submissions and bonuses will be approved on Saturday the week after next</u>.

Once you understand the conditions of participation, please respond to the consent form on the next page.

Consent

Consent Statement:

I consent to participate in this research project. It has been explained to me that the purpose of this research is to investigate decision-making. I have also been provided with a written project information sheet in a language that I can understand.

The possible risks of participating in this research have been explained to my satisfaction. I understand that in this research I will be required to complete five separate surveys, including this one, over the next two weeks.

I understand that my participation is voluntary and I am free to withdraw from this research anytime without needing to provide any explanation, and I would not receive any penalty or bias as a result of my withdrawal. Should I decide to withdraw, I understand that my data will be destroyed and will not be used in the research.

I understand that data collected for this research will be stored in a secure online database, and only the survey company and the researchers listed on the Participant Information Sheet will have access to the data. I consent for my data to be used in future research that is an extension of or related to this project.

I understand that this research adheres to the Guidelines of the ethical review process of The University of Queensland and the National Statement on Ethical Conduct in Human Research. I have been provided with contact details of the researcher, as well as UQ Ethics Coordinator.

- O I agree with the above statements and consent to participate in this research.
- O I do not consent to participate in this research.

Demographic Questions

What is the highest level of school you have completed or the highest degree you have received?

- O Less than high school degree
- O High school graduate (high school diploma or equivalent including GED)
- O Some college but no degree
- O Associate degree in college (2-year)
- O Bachelor's degree in college (4-year)
- O Master's degree
- O Doctoral degree
- O Professional degree (JD, MD)

Are you employed as a manager?

- O I am employed as a manager.
- O I am employed, but not as a manager.
- O I am not employed.

In general, how willing or unwilling you are to take risks. Please use a scale from 0 to 10, where 0 means "completely unwilling to take risks" and a 10 means you are "very willing to take risks".

How willing are you to give up something that is beneficial for you today in order to benefit more from that in the future? Please use a scale from 0 to 10, where 0 means "completely unwilling to give up something today" and a 10 means you are "very willing give up something today".

| ° | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | |

Block 3

Earning Money

During the study, you will be paid in two ways.

First, you will receive the normal Prolific payment for completing all of the five study surveys. You are completing the first survey now! Participants will receive \$10/hour on average for completing the surveys. Second, you will receive *bonus payments* for completing tasks. Each task involves moving a number of sliders to a predetermined point. There will be two kinds of tasks: each "easy" task will involve moving a set of 20 sliders to predetermined points, while each "hard" task will involve moving a set of 30 sliders to predetermined points. The bonus will be paid for each set of sliders (20 for easy sets, 30 for hard sets) that you do, and you will make choices about how many tasks to complete at a variety of different wage rates.

Please complete the following 4 sets of sliders to familiarize yourself with the process. You will first complete 2 "easy" sets of sliders and then 2 "hard" sets of sliders.

Easy Task Block

Easy set 1: Match each of the 20 sliders to the amount written on the left. You will not be able to continue until all sliders are matched correctly.

Block 5

Easy set 2: Match each of the 20 sliders to the amount written on the left. You will not be able to continue until all sliders are matched correctly.

Allocation & Commitment Explanation

Earning Bonus Payments

You will complete sets of sliders for bonus payments in the third and fifth parts of this study. We will ask you how many sets of sliders you would like to complete for three different payment rates (\$0.06 per

set, \$0.12 per set, or \$0.18 per set of sliders). An example of what this choice will look like can be found below.

EXAMPLE SLIDER CHOICE QUESTION (your choice here will not count):

How many <u>sets</u> of sliders would you like to complete if <u>the sets are</u> <u>hard</u>? Please choose a number between 0 and 19 for each payment rate. Remember: you are paid per <u>set</u> of sliders, not per slider!

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |
| \$0.18/set of sliders | |

As an example, if you choose to do 5 sets of sliders at a payment rate of \$0.12 per set, then you would receive a bonus payment of \$0.60.

You will be asked <u>two times</u> to say how many sliders you would like to complete. In both the second and third parts of the study, we will ask you how many sets of sliders you would like to complete in the
third part. In other words, in the second part of the study, you will make an initial decision. Then in the third part, you will have a chance to make a different decision, if you wish, before actually completing the sets of sliders.

Similarly, in both the fourth and fifth parts of the study, we will also ask you how many sets of sliders you would like to complete in the fifth part.

Because we will ask you twice about how many sets of sliders you would like to complete for payment, we will randomly select which choice will count. For instance, the number of sets of sliders you complete in the third part could be determined by your choice in the second part with 1 out of 5 chance and your choice in the third part with 4 out of 5 chance.

In addition, we will allow you to choose the likelihood that each choice is the one that counts (potentially) at the cost of doing a few more easy sets of sliders. For instance, we will ask you questions like "would you rather complete 1 easy set of sliders now with 4 out of 5 chance of today's choices being the ones that count or would you like to complete 3 easy sets of sliders now and have 1 out of 5 chance of today's choices being the ones that count."

Let's review these instructions on the next page.

Rules Quiz

Please answer the following questions to make sure that you understand the process.

You can review the instructions that you received earlier at this link: Instructions from Survey 1

How many parts are there in the study, counting this one?

- 0 2
- 03
- 04
- 05

Recall that some sets of sliders will be "easy" and some will be "hard". How many individual sliders are there in an "easy" set? Your answer should be a number between 1 and 100.

In which parts of the study will we ask you how many sets of sliders you want to complete in the third part of the study? Check all boxes that apply.

- Part 1
- Part 2
- Part 3
- Part 4

Imagine that in Part 2 you made the choices that you see in the first picture, while in Part 3 you made the choices in the second picture. What is the **minimum** number of sets of sliders that it is possible you will complete in Part 3? Your answer should be a number between 1 and 100.

| | | 0 | a la la filia la la la |
|----|----|------------|------------------------|
| μ | an | · · / | CHOICES. |
| ۰. | an | · ∠ | CHOICES. |

| \$0.06/set of sliders | 13 |
|-----------------------|---------|
| \$0.12/set of sliders | 10 |
| \$0.18/set of sliders | 15 |
| Part 3 choices: | |
| \$0.06/set of sliders | 5 |
| \$0.00/set of alldera | 5 |
| \$0.12/set of sliders | 12 |
| \$0.18/set of sliders | 20 |
| Input your answe | r here: |

Imagine that in Part 4 you make the choice that you see below and it ends up being a choice that counts. What is the likelihood that the number of tasks you choose to complete in Part 5 ends up being the one that counts?

Calendar Reminder

Thank you for completing this part of the study. Remember that there are 4 more parts of the study, and you must complete them all for your submissions to be approved. The next part of the study will appear on your Prolific dashboard on Monday and you will be required to complete that part by Tuesday night. The calendar below shows the schedule for all parts of the study.

<u>Please don't forget to click the arrow at the bottom to finalize</u> <u>this part of the survey. Not doing this could delay your payment</u> <u>or even result in being dropped from the experiment.</u>

II.2 Survey 2

Quiz 1 Block

Thank you for logging in to complete the second part of the study!

Before continuing with the study, you will compete in a contest against one other player that you are randomly matched with. The outcome of this contest will determine the difficulty of the sets of sliders that you will be asked to complete in the next part of the study. If you win the contest, you will need to complete "easy" sets that involve 20 sliders each. If you lose the contest, you will need to complete "hard" sets that will involve 30 sliders each. The payment that you receive for completing each set of sliders will be the same whether they are easy or hard.

The contest will involve an IQ quiz with 10 questions. In each question you will see eight images with a missing slot for a ninth. You will choose the best fit from among the four options that you are given.

We will count the number of correct answers you and your opponent give. You will win the contest if you have a higher score than the person you are matched with. If you have the same score as the person you are matched with, the winner will be chosen randomly. Please choose the best fit among the four options below for each question:

 \bigcirc

C

Quiz 1 Beliefs

As a reminder, you will win the contest if you have a higher score than the person you are matched with. If you have the same score as the person you are matched with, the winner will be chosen randomly. What do you think are the chances, out of 100, that you will win the contest? You can write down any number from 0 to 100 out of 100.

Commitment Choice

You will have the opportunity to complete sets of sliders for payment in the third part of the study. We will ask you how many sets you want to complete for various payment rates both in the second part of the study (this part) and in the third part of the study. However, only one of these choices will be the one that counts.

Now, you will make a series of choices that allow you to affect the chance that your choices in this part of the study are the ones that count. These choices will involve extra sets of easy sliders. By choosing more or fewer easy sliders, you will change the probability that your choices in this part of the study are the ones that count.

This decision will measure the strength of your preference for which choices count.

We will randomly select which one of these choices will be the one that counts. When you make these decisions, treat every decision as if it is the one that counts because each decision could count.

Choose either the left or right option from each pair of options below.

Make this survey's choices more likely:

Make the next survey's choices more likely:

1 easy set of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely:

Make the next survey's choices more likely:

2 easy sets of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely:

Make the next survey's choices more likely:

3 easy sets of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely:

Make the next survey's choices more likely:

4 easy sets of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely: Make the next survey's choices more likely:

5 easy set of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count

Task Allocation

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line, you chose "\${q://QID28/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line, you chose "\${q://QID29/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line, you chose "\${q://QID30/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line, you chose "\${q://QID31/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line, you chose "\${q://QID32/ChoiceGroup/SelectedChoices}."

In the third part of the study, you will be asked to complete a number of slider tasks. Each set of sliders will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in the third part of the study for different potential payment rates. Furthermore, you must choose how many sets of sliders you would like to complete if the sets of sliders are easy (20 sliders each), hard (30 sliders each), or without knowing whether they are easy or hard.

One choice will be randomly selected to be the one that counts. Recall that there is a 1 out of 5 chance of today's choices being the ones that count and 4 out of 5 chance of the next survey's choices being the ones that count. Because any choice can be selected, **it is**

in your interest to make every choice as if it will be the one that <u>counts</u>.

In the third part of the study, you will be asked to complete a number of slider tasks. Each set of sliders will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in the third part of the study for different potential payment rates. Furthermore, you must choose how many sets of sliders you would like to complete if the sets of sliders are easy (20 sliders each), hard (30 sliders each), or without knowing whether they are easy or hard.

One choice will be randomly selected to be the one that counts. Recall that there is a 4 out of 5 chance of today's choices being the ones that count and 1 out of 5 chance of the next survey's choices being the ones that count. Because any choice can be selected, <u>it is</u> <u>in your interest to make every choice as if it will be the one that</u> <u>counts</u>.

How many sets of sliders would you like to complete if you <u>win</u> the contest (so <u>the sets are easy</u>)? Please choose a number between 0 and 19 for each payment rate. Because this choice will only count if

you win the contest, the choice that is best for you **<u>should not</u>** depend on whether you think you will win.

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |
| \$0.18/set of sliders | |

How many sets of sliders would you like to complete if you <u>lose</u> the contest (so <u>the sets are hard</u>)? Please choose a number between 0 and 19 for each payment rate. Because this choice will only count if you lose the contest, the choice that is best for you <u>should not</u> depend on whether you think you will win.

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |
| \$0.18/set of sliders | |

How many sets of sliders would you like to complete <u>without</u> <u>knowing</u> whether you won the contest (so <u>the sets may be easy or</u> <u>hard</u>)? Please choose a number between 0 and 19 for each payment rate. The choice that is best for you **should** depend on whether you think you will win the contest.

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |
| \$0.18/set of sliders | |

Commitment Payment Tasks

Recall that you chose "\${q://QID28/ChoiceGroup/SelectedChoices}." So you will complete \${e://Field/Task_Price_Commitment_1} set(s) of sliders now.

Recall that you chose "\${q://QID29/ChoiceGroup/SelectedChoices}." So you will complete \${e://Field/Task_Price_Commitment_1} set(s) of sliders now.

Recall that you chose "\${q://QID30/ChoiceGroup/SelectedChoices}." So you will complete \${e://Field/Task_Price_Commitment_1} set(s) of sliders now. Recall that you chose "\${q://QID31/ChoiceGroup/SelectedChoices}." So you will complete \${e://Field/Task_Price_Commitment_1} set(s) of sliders now.

Recall that you chose "\${q://QID32/ChoiceGroup/SelectedChoices}." So you will complete \${e://Field/Task_Price_Commitment_1} set(s) of sliders now.

Easy Block 1

Set 1 of \${e://Field/Task_Price_Commitment_1}: match each of the 20 sliders to the amount written on the left. You will not be able to continue until all sliders are matched correctly.

Goodbye

Thank you for completing this part of the study. Remember that there are 3 more parts of the study, and you must complete them all for your submissions to be approved. The next part of the study will appear on your Prolific dashboard on Thursday and you will be required to complete that part by Friday night.

<u>Please don't forget to click the arrow at the bottom to finalize</u> <u>this part of the survey. Not doing this could delay your payment</u> <u>or even result in being dropped from the experiment.</u>

Task Allocation

Thank you for logging in to complete the third part of the study!

In this part of the study, you will be asked to complete a number of slider tasks. Each slider task will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in this part of the study for different potential payment rates. You must choose how many sets of sliders you would like to complete without knowing whether they are easy or hard. We will then tell you whether you won the contest and again ask you how many sets of sliders you would like to complete.

One choice will be randomly selected to be the one that counts. Recall that there is a 1 out of 5 chance of the last survey's choices being the ones that count and 4 out of 5 chance of today's choices being the ones that count. Because any choice can be selected, <u>it is</u> <u>in your interest to make every choice as if it will be the one that</u> <u>counts</u>. In this part of the study, you will be asked to complete a number of slider tasks. Each slider task will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in this part of the study for different potential payment rates. You must choose how many sets of sliders you would like to complete without knowing whether they are easy or hard. We will then tell you whether you won the contest and again ask you how many sets of sliders you would like to complete.

One choice will be randomly selected to be the one that counts. Recall that there is a 4 out of 5 chance of the last survey's choices being the ones that count and 1 out of 5 chance of today's choices being the ones that count. Because any choice can be selected, <u>it is</u> <u>in your interest to make every choice as if it will be the one that</u> <u>counts</u>.

How many sets of sliders would you like to complete <u>without</u> <u>knowing</u> whether you won the contest (so <u>the sets may be easy or</u> <u>hard</u>)? Please choose a number between 0 and 19 for each payment rate. The choice that is best for you <u>should</u> depend on whether you think you will win the contest.

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |

\$0.18/set of sliders

Contest Outcome

We can now reveal that you won the contest.

We can now reveal that you lost the contest.

Now that you know that you have won the contest (so **the sets are <u>easy</u>**), how many sets of sliders would you like to complete? Please choose a number between 0 and 19 for each payment rate.

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |

\$0.18/set of sliders

Now that you know that you have lost the contest (so **<u>the sets are</u> <u>hard</u>**), how many sets of sliders would you like to complete? Please choose a number between 0 and 19 for each payment rate.

| \$0.06/set of sliders | |
|-----------------------|--|
| \$0.12/set of sliders | |
| \$0.18/set of sliders | |

Allocation Information

We randomly selected among the potential payment rates, and the rate that will count for you will be \$0.06/set of sliders.

We randomly selected among the potential payment rates, and the rate that will count for you will be \$0.12/set of sliders.

We randomly selected among the potential payment rates, and the rate that will count for you will be \$0.18/set of sliders.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_1_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Easy_1_10} sets of sliders if you won the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_1_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_1_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_1_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Easy_1_10} sets of sliders knowing you won the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_1_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Easy_1_20} sets of sliders if you won the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_1_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_1_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_1_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Easy_1_20} sets of sliders knowing you won the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_1_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Easy_1_30} sets of sliders if you won the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_1_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_1_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_1_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Easy_1_30} sets of sliders knowing you won the contest.

In the second part of the study, you indicated that you would do \${e://Field/All_Com_Unc_1_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Hard_1_10} sets of sliders if you lost the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_1_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_1_10} sets of sliders knowing you lost the contest.

In the second part of the study, you indicated that you would do \${e://Field/All_Com_Unc_1_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Hard_1_20} sets of sliders if you lost the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_1_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_1_20} sets of sliders knowing you lost the contest.

In the second part of the study, you indicated that you would do \${e://Field/All_Com_Unc_1_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Hard_1_30} sets of sliders if you lost the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_1_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_1_30} sets of sliders knowing you lost the contest.

We have randomly selected among these four options and today you will complete \${e://Field/All_Implemented_1} sets of sliders.

Prolific Completion Code

Before completing the sets of sliders that you agreed to, please go to Prolific and type in the completion code CG0QV8IB. You must type in this code before starting with the sliders so that you do not

time out of the study. <u>It is important that you enter the code now</u> <u>because you will likely time out of the Prolific study if you do</u> <u>not</u>.

Please remember that you **<u>must</u>** complete the sets of sliders that you agreed to today in order to continue with the study and have your submissions approved.

If you fail to enter the Prolific code now or you do not return and complete the sliders, you will not receive payment for any of the surveys you have completed as part of this study.

Please go to Prolific and type in the completion code CG0QV8IB. After typing in the code, please return to this survey and complete it.

You **<u>must</u>** complete the survey in order to continue with the study and have your submissions approved.

If you fail to enter the Prolific code now or you do not return and complete the survey, you will not receive payment for any of the studies you have completed as part of this survey.

Please confirm that you have typed the completion code into Prolific.

- O Yes, I have typed the completion code into Prolific.
- No, I have not typed the completion code into Prolific yet.

Easy1

Easy set 1 of \${e://Field/All_Implemented_1}: Match each of the 20 sliders to the amount written on the left. You will not be able to continue until all sliders are matched correctly.

Block 43

Thank you for completing this part of the study. Remember that there are 2 more parts of the study, and you must complete them all for your submissions to be approved. The next part of the study will appear on your Prolific dashboard on Monday and you will be required to complete that part by Tuesday night.

<u>Please don't forget to click the arrow at the bottom to finalize</u> <u>this part of the survey. Not doing this could delay your payment</u> <u>or even result in being dropped from the experiment</u>.

II.4 Survey 4

Quiz 2 Block

Thank you for logging in to complete the fourth part of the study!

Before continuing with the study, you will compete in a contest against one other player that you are randomly matched with. The outcome of this contest will determine the difficulty of the sets of sliders that you will be asked to complete in the next part of the study. If you win the contest, you will need to complete "easy" sets that involve 20 sliders each. If you lose the contest, you will need to complete "hard" sets that will involve 30 sliders each. The payment that you receive for completing each set of sliders will be the same whether they are easy or hard.

The contest will involve an IQ quiz with 10 questions. The quiz is similar to the quiz from the second part of the study, but the questions are different. In each question you will see eight images with a missing slot for a ninth. You will choose the best fit from among the four options that you are given.

We will count the number of correct answers you and your opponent give. You will win the contest if you have a higher score than the person you are matched with. If you have the same score as the person you are matched with, the winner will be chosen randomly. Please choose the best fit among the four options below for each question:

| 4 | • | • | |
|---|----|---|--|
| | | | |
| | | | |
| | -(| | |

| •• | |

| 0 | ● |

Contest Beliefs: Control and Task Info Treatment

As a reminder, you will win the contest if you have a higher score than the person you are matched with. If you have the same score as the person you are matched with, the winner will be chosen randomly.

What do you think are the chances, out of 100, that you will win the contest? You can write down any number from 0 to 100 out of 100.

Contest Signal Treatment

We already told you that you won the contest from Part 2 of the study. Please confirm that you understand this information

 \bigcirc I won the contest from the previous study.

O I did not win the contest from the previous study.

We already told you that you did not win the contest from Part 2 of the study. Please confirm that you understand this information

 \bigcirc I won the contest from the previous study.

O I did not win the contest from the previous study.

We also matched you with two other randomly drawn participants from the previous study, and **you lost against both of them**. Please confirm that you understand this information.

- O I won against 0 out of 2 other randomly drawn participants.
- O I won against 1 out of 2 other randomly drawn participants.
- O I won against 2 out of 2 other randomly drawn participants.

We also matched you with two other randomly drawn participants from the previous study, and **you won against one of them**. Please confirm that you understand this information.

- O I won against 0 out of 2 other randomly drawn participants.
- O I won against 1 out of 2 other randomly drawn participants.
- O I won against 2 out of 2 other randomly drawn participants.

We also matched you with two other randomly drawn participants from the previous study, and **you won against both of them**. Please confirm that you understand this information.

- O I won against 0 out of 2 other randomly drawn participants.
- O I won against 1 out of 2 other randomly drawn participants.
- O I won against 2 out of 2 other randomly drawn participants.

As a reminder, you will win the contest if you have a higher score than the person you are matched with. If you have the same score as the person you are matched with, the winner will be chosen randomly.

What do you think are the chances, out of 100, that you will win the contest? You can write down any number from 0 to 100 out of 100.

Task Info Treatment

In Session 2, for a payment rate of \$0.06 per set and knowing the sets would be easy, you agreed to complete \${e://Field/All_Com_Easy_1_10} sets. In Session 3, in the same setting, you agreed to complete \${e://Field/All_Uncom_Easy_1_10} sets.

In Session 2, for a payment rate of \$0.12 per set and knowing the sets would be easy, you agreed to complete \${e://Field/All_Com_Easy_1_20} sets. In Session 3, in the same setting, you agreed to complete \${e://Field/All_Uncom_Easy_1_20} sets.

In Session 2, for a payment rate of \$0.18 per set and knowing the sets would be easy, you agreed to complete \${e://Field/All_Com_Easy_1_30} sets. In Session 3, in the same setting, you agreed to complete \${e://Field/All_Uncom_Easy_1_30} sets.

In Session 2, for a payment rate of \$0.06 per set and knowing the sets would be hard, you agreed to complete \${e://Field/All_Com_Hard_1_10} sets. In Session 3, in the same setting, you agreed to complete \${e://Field/All_Uncom_Hard_1_10} sets.

In Session 2, for a payment rate of \$0.12 per set and knowing the sets would be hard, you agreed to complete \${e://Field/All_Com_Hard_1_20} sets. In Session 3, in the same setting, you agreed to complete \${e://Field/All_Uncom_Hard_1_20} sets.

In Session 2, for a payment rate of \$0.18 per set and not knowing whether the sets would be easy or hard, you agreed to complete \${e://Field/All_Com_Unc_1_30} sets. In Session 3, in the same setting, you agreed to complete \${e://Field/All_Uncom_Unc_1_30} sets.

In Session 2, for a payment rate of \$0.06 per set and not knowing whether the sets would be easy or hard, you agreed to complete \${e://Field/All_Com_Unc_1_10} sets. In Session 3, in the

- O The amount of sets I chose in Session 2 is lower than the amount I chose in Session 3.

Why might someone's choices change over time?

Commitment Choice 2

You will have the opportunity to complete sets of sliders for payment in fifth part of the study. We will ask you how many sets of sliders you want to complete for various payment rates both in the fourth part of the study (this part) and in the fifth part of the study. However, only one of these choices will be the one that counts.

Now, you will make a series of choices that allow you to affect the chance that your choices in this part of the study are the ones that count. These choices will involve extra sets of easy sliders. By choosing more or fewer easy sliders, you will change the probability that your choices in this part of the study are the ones that count.

This decision will measure the strength of your preference for which choices count.

We will randomly select which one of these choices will be the one that counts. When you make these decisions, treat every decision as if it is the one that counts because each decision could count.

Make this survey's choices more likely:

Make the next survey's choices more likely:

1 easy set of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count

Make this survey's choices more likely:

Make the next survey's choices more likely:

2 easy sets of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely:

Make the next survey's choices more likely:

3 easy sets of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely: Make the next survey's choices more likely:

4 easy sets of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Make this survey's choices more likely:

Make the next survey's choices more likely:

5 easy set of sliders today, 4 out of 5 chance of 3 easy sets of sliders today, 1 out of 5 chance of today's choices being the ones that count today's choices being the ones that count

Task Allocation 2

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line you chose "\${q://QID28/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line you chose "\${q://QID29/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line you chose "\${q://QID30/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line you chose "\${q://QID31/ChoiceGroup/SelectedChoices}."

We randomly selected one of the lines from the previous page, and your choice from that line will count. In the randomly selected line you chose "\${q://QID32/ChoiceGroup/SelectedChoices}."

In the fifth part of the study, you will be asked to complete a number of slider tasks. Each slider task will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in the fifth part of the study for different potential payment rates. Furthermore, you must choose how many sets of sliders you would like to complete if the sets of sliders are easy (20 sliders each), hard (30 sliders each), or without knowing whether they are easy or hard.

One choice will be randomly selected to be the one that counts. Recall that there is a 1 out of 5 chance of today's choices being the ones that count and 4 out of 5 chance of the next survey's choices being the ones that count. Because any choice can be selected, <u>it is</u> <u>in your interest to make every choice as if it will be the one that</u> <u>counts</u>.

In the fifth part of the study, you will be asked to complete a number of slider tasks. Each slider task will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in the fifth part of the study for different potential payment rates. II.5 Survey 5

Task Allocation

Thank you for logging in to complete the fifth and final part of the study!

In this part of the study, you will be asked to complete a number of slider tasks. Each slider task will contain either 20 sliders (if you win the contest) or 30 sliders (if you lose the contest). You will be paid for each set of sliders that you complete.

We would like to know how many sets of sliders you would like to complete in this part of the study for different potential payment rates. You must choose how many sets of sliders you would like to complete without knowing whether they are easy or hard. We will then tell you whether you won the contest and again ask you how many sets of sliders you would like to complete.

One choice will be randomly selected to be the one that counts. Recall that there is a 1 out of 5 chance of the last survey's choices being the ones that count and 4 out of 5 chance of today's choices being the ones that count. Because any choice can be selected, **it is**

in your interest to make every choice as if it will be the one that counts.

We randomly selected among the potential payment rates, and the rate that will count for you will be \$0.12/set of sliders.

We randomly selected among the potential payment rates, and the rate that will count for you will be \$0.18/set of sliders.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Easy_2_10} sets of sliders if you won the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Easy_2_10} sets of sliders knowing you won the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_2_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Easy_2_20} sets of sliders if you won the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_2_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_2_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Easy_2_20} sets of sliders knowing you won the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Easy_2_30} sets of sliders if you won the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Easy_2_30} sets of sliders knowing you won the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Hard_2_10} sets of sliders if you lost the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_2_10} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_2_10} sets of sliders knowing you lost the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_2_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Hard_2_20} sets of sliders if you lost the contest. Earlier in this part of the study, you indicated that you

would do \${e://Field/All_Uncom_Unc_2_20} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_2_20} sets of sliders knowing you lost the contest.

In the second part of the study, for the payment rate that counts, you indicated that you would do \${e://Field/All_Com_Unc_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Com_Hard_2_30} sets of sliders if you lost the contest. Earlier in this part of the study, you indicated that you would do \${e://Field/All_Uncom_Unc_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Unc_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_2_30} sets of sliders without knowing the outcome of the contest, and that you would do \${e://Field/All_Uncom_Hard_2_30} sets of sliders knowing you lost the contest.

We have randomly selected among these four options and today you will complete \${e://Field/All_Implemented_2} sets of sliders.

Prolific Completion Code

Before completing the sets of sliders that you agreed to, please go to Prolific and type in the completion code CP8TQ9VA. <u>You must</u> <u>type in this code before starting with the sliders so that you do</u>

not time out of the study. It is important that you enter the code now because you will likely time out of the Prolific study if you do not.

Please remember that you **<u>must</u>** complete the sets of sliders that you agreed to today in order to continue with the study and have your submissions approved.

If you fail to enter the Prolific code now or you do not return and complete the sliders, you will not receive payment for any of the surveys you have completed as part of this study.

Please go to Prolific and type in the completion code CP8TQ9VA. After typing in the code, please return to this survey and complete it.

You **<u>must</u>** complete the survey in order to continue with the study and have your submissions approved.

If you fail to enter the Prolific code now or you do not return and complete the survey, you will not receive payment for any of the studies you have completed as part of this survey.

Please confirm that you have typed the completion code into Prolific.

- O Yes, I have typed the completion code into Prolific.
- \bigcirc No, I have not typed the completion code into Prolific yet.

Easy1

Easy set 1 of \${e://Field/All_Implemented_2}: Match each of the 20 sliders to the amount written on the left. You will not be able to continue until all sliders are matched correctly.

Goodbye

That was the final part of the study. Thank you for completing all parts.

Please don't forget to click the arrow at the bottom to finalize this part of the survey. Not doing this could delay your payment or even result in being dropped from the experiment.
